**SMAR's Support During Christmas:**

· Our support during the holidays

**New AzureProject Release**

· Learn about the numerous enhancements.

**Thank YOU!:**

· Thanks to all for the support over the past 20 years

**Support during the HOLIDAYS!**

As we approach the festive season, we want to extend our heartfelt gratitude to all our customers for making this year truly extraordinary. 2024 has been special as we celebrated 20 years in the business—an achievement made possible by your trust and unwavering support.

While the holidays are a time for rest, please note that our support services will be limited from December 25th, 2024, to January 6th, 2025. Urgent matters will, of course, be prioritised. As we close out this milestone year, we look forward to the opportunities 2025 will bring.

Wishing you all a joyful holiday season and a prosperous New Year!

**AzureProject New Release**

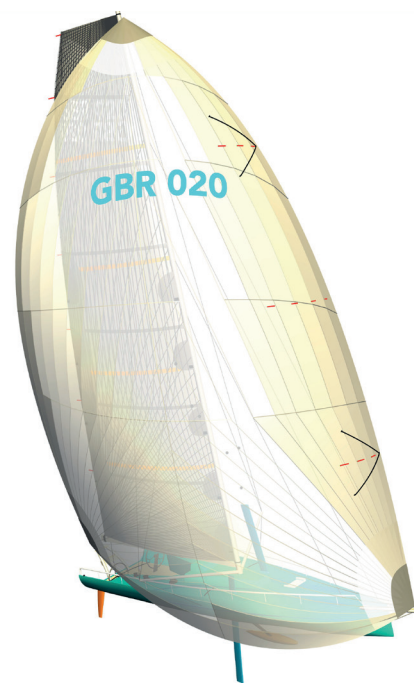

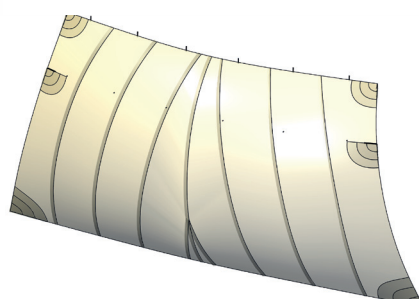

We are excited to announce the upcoming release of our enhanced sail design software, packed with upgrades to elevate your sailmaking experience.

This update features visible and behind-the-scenes improvements, focusing on panel development accuracy for radial, cross-cut, fan-cut, and mitre-cut layouts.

For deep and twisted sails like asymmetric spinnakers, alignment of development triangles has been enhanced for radial, vertical, and cross-cut panels, ensuring panel surfaces closely match the design. Symmetric spinnakers now offer new options, including symmetrical square sail design for tall ships, head curve control, and inverted reef patch placement.

A full list of updates will be included in the release notes for active customers. For questions about the new features, email us at [support@smar-azure.com](mailto:support@smar-azure.com).

Thank you for your trust—we look forward to supporting your sailmaking journey with these exciting advancements!

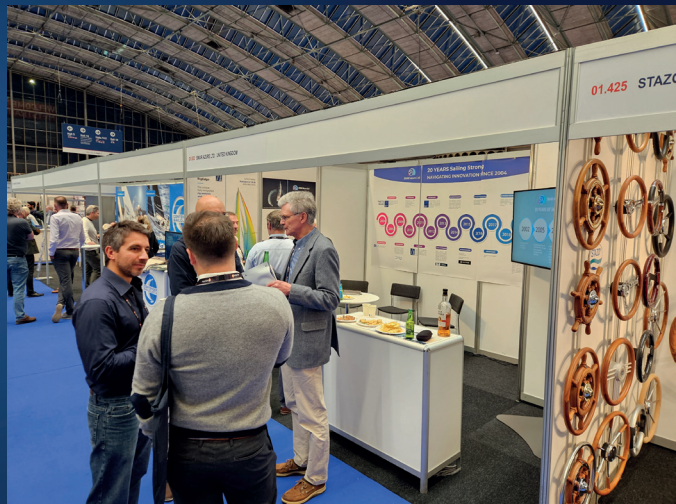

**THANK YOU!**

A heartfelt thank you to all our customers who have supported us over the past 20 years!

Your trust and collaboration have been the foundation of our success. We were delighted to celebrate this milestone with many of you at METS 2024 in November.

Here's to the next 20 years of innovation and partnership!
